From Science to Business

FS2B

4 - 15 October, 2021

From Science to Business (FS2B) is a course designed by The Barcelona Institute of Science and Technology and Esade to improve **entrepreneurship and innovation skills** among the members of the BIST community, with the goal of **fostering the development of new ventures and the creation of spin-off companies**.

Researchers from other institutions are also welcome upon request and subject to availability.

1. About FS2B

Overview

Today's global economy and businesses are facing a tremendous challenge: how to transform research -the money invested and the resources provided to research institutions- into new innovations to create new products and services that can improve the life of individuals and society as a whole.

One of the main barriers encountered is the “distance” between researchers and the business world. This distance is not usually physical, it is simply a lack of knowledge on both sides.

Minimizing this distance would, without a doubt, **improve the returns to society** on the money invested in R&D.

The participation of the scientist behind the invention and/or the researchers who decide to pursue a professional career in developing new businesses will significantly increase the odds of a successful new company.

Participants

This programme, delivered by Esade since 2008 (firstly in collaboration with ICFO and, from 2016, with BIST), is aimed at Senior and postdoctoral researchers, staff and graduating doctoral students, members of the BIST community. Researchers from other institutions are also welcome upon request and subject to availability.

This course aims to **increase the speed of turning innovation and knowledge into new ventures.**

The course, is designed for groups of approximately 30-35 people to ensure optimal participation, learning and faculty-to-participant ratio.

Learning objectives

The From Science to Business programme will prepare participants:

- To **get acquainted with the business world**, and to show how companies create value for society and for themselves: providing more, better and healthier food, a cleaner and safer environment, a higher quality of life, etc.
- To provide a framework to understand **how companies work** and **how they create value** in a competitive environment.
- To **help understand the new venture creation process**, and the role that science/technology plays in it.
- To show that **new venture creation needs scientists and engineers**, and that entrepreneurship can be an attractive career path for them.

Key takeaways

How to find and evaluate business ideas.

- Methods to differentiate between an idea and an opportunity.
- Tools to analyze the environment, the industry and the market to understand the opportunity.
- How to craft and validate a suitable business model.
- The basics of competitive strategy: how to win clients and differentiate yourself from your competitor
- Basic understanding of the interrelationship between science/technology and strategy.
- Understanding financial statements: profit and loss account, cash flow and balance sheet.
- Methods to estimate the capital requirements of the venture: the financial plan.
- Hands-on experience: working on a business opportunity and design a business model for it.

2. Contents & Structure

Contents & Structure

Entrepreneurs Panel

- Warm up for the programme
- Learn about experiences from other entrepreneurs & open participants' horizons
- Get to know the other participants

Entrepreneurship

- Understand the process of developing and managing a scientific new venture
- Learning and practicing how to design and validate a business model for a new science business
- Learning how to prepare and use a business plan

Innovation & Strategy

- Provide a framework to understand the company from a strategic point of view
- Provide tools to analyze the general environment
- Understanding the role of innovation in framing strategy

Entrepreneurial Finance

- Understand the financial needs of a venture
- Learn how to develop a Financial Plan, estimate cash flows and determine the financial needs
- Get to know the financial resources for a science-based new venture

Project Workshop

- Put into practice the knowledge acquired during the sessions.
- Apply the management learnings in your own project.
- Design a science/technology-based start-up using collaborative methodology

TENTATIVE AGENDA*

Mon, 4 Oct Location: Esade	Tues, 5 Oct Location: Esade	Wed, 6 Oct Location: Esade	7 to 13 Oct	Thurs, 14 Oct Location: Esade	Fri, 15 Oct Location: Esade	
	9:00–11:00 Entrepreneurship Prof. Jordi Vinaixa	9:00–11:00 Innovation & Strategy Prof. Xavier Ferràs	Time for groups to work on projects	9:00 –11:00 Entrepreneurial Finance Prof. Teresa Corrales	9:00 –11:00 Project Workshop (in groups)	
	Coffee break				Coffee break	Coffee break in classroom

15:30 –17:30 Welcome Event & Entrepreneurs Panel	16:45 –18:00 Project Workshop (in groups)	16:45 –18:00 Project Workshop (with Esade faculty)			16:45 –18:00 Entrepreneurial Finance Prof. Teresa Corrales	
				Project Workshop (in groups)		

Location: ESADE:
Av. d'Esplugues, 92-96
08034 Barcelona

* Subject to change.

Welcome Event & Panel of Entrepreneurs

- This activity will serve as the **programme kick-off**. BIST will invite a selected number of entrepreneurs who will share their stories, their experiences and their vision on start-up creation with the participants.
- The purpose of this activity is to get **inspired by entrepreneurs with science and technology backgrounds**. We will facilitate the interaction with both, the speakers and the other participants.

Entrepreneurship

- This module will focus on two main issues in Entrepreneurship – firstly, the context, in which a scientific venture is established and operates and, secondly, the process of developing and managing a new venture.
- Module contents:
 - Understanding the process of building a science-based new venture.
 - From ‘the idea’ to ‘the opportunity’: assessing the opportunity.
 - Designing a suitable business model for the opportunity.
 - The business plan: how to prepare and use it.

FACULTY
TO BE INVOLVED

[Prof. Dr. Jordi Vinaixa](#)

Innovation & Strategy

- This module will provide a framework for understanding the company from a strategic point of view, the tools to analyze the general environment and the industry and a model for strategic management.
- Module contents:
 - Different business strategy options and the search for a competitive advantage.
 - The Industry and the Company Value Chains.
 - Key Success Factors.
 - Mechanisms for growth.
 - Science/technology and strategy interrelationship.

FACULTY
TO BE INVOLVED

[Prof. Dr. Xavier Ferràs](#)

Project Workshop

- A Project Workshop will be put into practice throughout the programme so that participants will implement their learnings and will apply them to their own case studies and projects with an eminently **practical approach**.
- **Layout of the Workshop:**
 - Participants will work in teams of approximately 5 people
 - During the Workshop teams will:
 - work on the business opportunity: Market size, competitive analysis, and time (technology adoption Life Cycle)
 - design a business model (BMC) for the opportunity
 - identify the (3) most important unknowns/hypotheses on the BM and work on a validation strategy
 - estimate the time and the amount of money they would need to get to the next step (first validation round)
 - pitch their projects to receive feedback from the other participants peers and professors
 - Teams will pitch their projects to all the participants, professors, and representatives of the Centers to obtain feed-back

FACULTY TO BE INVOLVED

[Prof. Dr. Jordi Vinaixa](#)

[Lluís Pareras](#)

Project Workshop

- Module contents:
 - Applying the contents acquired during the other sessions of the programme
 - Fostering communication skills and collaboration between other scientists/technologists.
 - Understanding the key issues when implementing a business idea
 - Pitching a project

FACULTY TO BE INVOLVED

[Prof. Dr. Jordi Vinaixa](#)

Entrepreneurial Finance

- This module will be dedicated to one of the most challenging and difficult activities that an entrepreneur must embark upon: understanding the financial needs of the venture.
- Module contents:
 - Understanding the financial statements: profit and loss account, cash flow and balance sheet.
 - Methods to estimate the capital requirements of the venture.
 - Preparation of the Financial Plan.
 - Financial resources for an innovative new venture: business angels and venture capital.

FACULTY TO BE INVOLVED

[Prof. Teresa Corrales](#)

Cases

- Throughout the programme, technology and science-related businesses and start-ups will be discussed.
- ESADE will work with science-based entrepreneurs in order to explore the possibilities to incorporate some parts of their experiences into the course. This will allow the students to see examples of entrepreneurship specifically related to science.

3. Faculty

Faculty

Prof. Dr. Jordi Vinaixa

Programme Director

Associate Professor, Department of Strategy and General management. PhD in Chemistry (University of Barcelona) and MBA (ESADE).

His main subjects of interest are Innovation and Technology based Entrepreneurship.

He did research in chemistry at the Universities of Barcelona and of Sussex, and has previous professional experience as a manager in the chemical, education, cultural and service industries.

Academic Director of the ESADE courses for the KIC InnoEnergy. Running *From Science to Business* and other science and technological related courses and activities since 2005.

Faculty to be involved

Prof. Dr. Xavier Ferràs

PhD in Economics and Business from UB and MBA from ESADE and Telecommunications Engineer from UPC.

Executive Director, ESADE Custom Programmes.

Former Dean of the Faculty of Business and Communication at the University of Vic.

Until 2012, he was Director of the ACC10 Centre for Business Innovation (Catalan Agency for Competitiveness), and was responsible for technology transfer policies, R&D and development of clusters in Catalonia.

Faculty to be involved

Prof. Teresa Corrales

Associate professor of finance at ESADE Business School. She is the academic director of the ESADE's Executive Programs AMP (Advanced Management Program) and of the ESADE – AALTO MBA for Executives Program. Her professional career has been developed in the financial area. She started her career at Price Waterhouse & Coopers in the audit division, being involved in several industries as automotive, gas, distribution, press, among others.

Afterwards she held manager roles in the financial area in listed Spanish companies, involved in the real estate business. Currently, she combines teaching and working as a financial consultant mainly involved in the management of insolvency processes, valuation of companies, and consultancy projects. Teresa holds a BSc in Management and MBA from ESADE. Her main subjects of interest are Entrepreneurship and Valuation of companies.

Faculty to be involved

Lluís Pareras

Founding partner at Invivo Ventures FCR, a venture capital fund investing in life sciences and healthcare (€40M, first closing). Degree and PhD in Medicine, specialist in Neurosurgery, and Global Executive MBA (IESE). He founded the “Innovation and entrepreneurship program” at the Barcelona Medical Association (CoMB), where he has been coaching entrepreneurs and he has founded and directed the Healthcare Investment Forums since 2009.

He has been an entrepreneur himself in the healthcare space and raised capital from investors. Deeply involved in the innovation ecosystem, he is a member and advisor of many healthcare innovation organizations such as Biocat (Board of Trustees), CIMTI, BarcelonaActiva Mentoring Program, Generalitat de Catalunya-CASOST and HEALTHIO among others. Author of numerous books in the field of innovation, venture capital and healthcare, such as “Innovation and Entrepreneurship in Healthcare”, published internationally. In the academic space, he has been a teacher in several business schools about healthcare innovation and venture capital. He remains as the Director of Healtiquity, SCR, a venture capital fund focused in early-stage companies in the healthcare sector, where he led the investment strategy and transaction processes of the different portfolio companies. Member of the Board of Directors of different life-sciences companies including Healtiquity's investments: Versantis, n-life Therapeutics and Minoryx Therapeutics. (TWITTER: @pareras)

4. About Esade

About Esade

- Esade has delivered the course *From Science to Business* to BIST staff since 2008, initially collaborating with ICFO and from 2016 with the Barcelona Institute of Science and Technology.
- Since 2010 Esade also delivers the course for the KIC InnoEnergy in collaboration with the European Institute of Innovation & Technology (EIT).
- International teams of MSc and PhD students
- 15 editions
- More than 375 participants from 20 nationalities

About Esade

International PRESTIGE

Esade is one of the top-10 business schools in Europe according to the main international rankings.

RECOGNIZED by Companies

Esade the 1st (most highly valued) international business school by companies.

INNOVATIVE with Regards to Learning

Esade's learning model, based on the development of managerial skills and competencies, is a pioneer in Europe.

COMMITTED to Society

Esade is the second most highly ranked business school in the world for the corporate social approach and ethics of its MBA. Its Institute for Social Innovation is the cornerstone of our social commitment.

Creates LINKS with People

Esade is the business school with the second largest alumni association in Europe (with more than 40,000 alumni).

HIGH QUALITY, Relevant Learning

Esade's commitment is to provide high quality, relevant learning for companies that translates into results.

Top-Nontech FACULTY with Business Experience

Esade has a widely recognized faculty, that on top of developing high-quality research, has also relevant business experience

Latest Business School Rankings:

5. About BIST

The Barcelona Institute of Science and Technology

BIST is a leading institution of multidisciplinary research encompassing seven Catalan research centres of excellence. By fostering collaboration among members of its diverse scientific community, BIST aims to play a leading role in pushing the frontiers of science while becoming a global reference for training outstanding research talent.

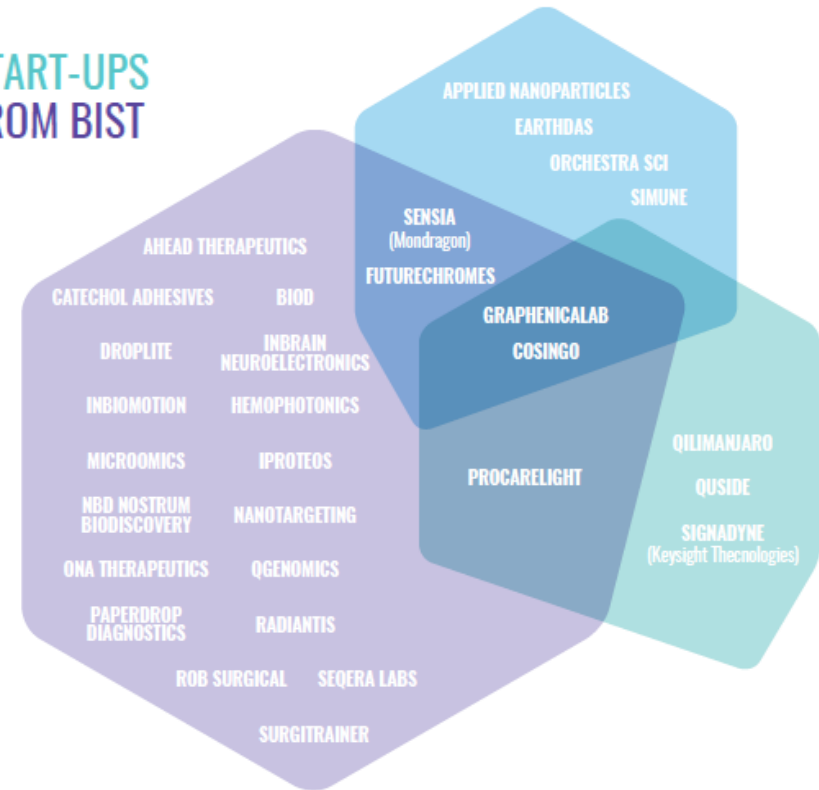

BIST: FROM RESEARCH TO MARKET

Transforming Basic Science into 37 SPINOFFS

- 40 *start-ups* created, of which **37 are active companies.**
- Key sectors: **Human Health / Sustainability / Computing & Communications**
- **In 2019-2020: 12 new startups** were launched

START-UPS FROM BIST

From Science to Business

■ Health / Life Sciences / Medtech
■ Energy / Sustainability
■ Computing / Communications / Sensing
